

BLOOD CANCER SOCIETY NEPAL

Poster CMLH21

14TH FEB

We did fund raise programme for the first time with the title "SHARE LOVE SAVE LIVES" on 14th Feb, and had been able to raise the amount of around USD 300.00

12TH MAY

Did Webinar on the topic "Helping cancer survivors to cope up with COVID 19" and it was in association with other patient support group and around 100 people participated.

14TH MAY

Maita devi BK, CML patient, age around 69yrs from Pokhara was admitted in Patan Hospital for almost a month. She had no relatives here in Kathmandu. Due to lock down in the country the old couple got stucked in KTM. So being a patient support group we Blood Cancer Society Nepal provided the couple, a transport service to their home town using a part of the fund that was collected in Feb 14

2ND SEPT

Did a scientific webinar on the topic "Blood Cancer" in association with few other partner organizations. Around 75 participated

22ND SEPT

World CML Day was celebrated; around 20 people attended taking the precaution of covid in the presence of doctor

ABIRAJ PUN CML PATIENT FROM JUMLA

He was on 1st generation TKI since August 2018, but migrated to third generation TKI's since August 2021 after not responding well to both 1st and 2nd generation TKI'S. Various tests those give the exact details on his health condition to decide the further treatment was advised. Because of his poor financial condition financial support of almost 65% was borne

KSHITIZ SAMSOHANG LIMBU BLOOD CANCER PATIENT UNDER CHEMO

The urge to save the life was posted on social media and when we visit his family got to know that he was under imatinib for around 1.6yrs but he was detected AML due to mutation. A small amount financial support was provided to him too.
